Saturday 3rd July 2010 - Special Price \$150.00pp all inclusive

LESS THAN an hour's drive from Melbourne, Macedon Ranges is a cool, lush area of elevated plains, volcanic soils, rocky outcrops, misty valleys and dark, mysterious bush. Stunning natural beauty aside, this region is home to some of Australia's finest boutique winemakers.

- Hanging Rock Winery – From the hillside tasting room, there's a great view of this geological curiosity in the forest, with the imposing bulk of Mount Macedon behind it. Taste specially selected Estate wines accompanied by a detailed description of vineyard procedures.
- Hanging Rock Reserve – Enjoy morning tea at Picnic Café, situated at the base of the Rock. From the Café take in the beautiful views of the Reserve. Visitors can discover the history, mystery and geology of the Rock and surrounding areas at the Hanging Rock Discovery Centre.
- Gisborne Peak Winery – Gisborne Peak is a labour of love for Bob & Barbara Nixon. From small beginnings as a hobby block in 1978, it has grown into the impressive vineyard that spreads out before the wide verandahs of the picturesque cellar door. Here you will enjoy their cool classic climate range. What to look for! How to Taste! Get the best out of a very well tutored tasting experience.
- Witchmount Estate – 4 course lunch with a personal touch on classical fine dining will be had at Avanti at Witchmount which is nestled within the vineyard. Each course will be matched with a ½ glass of wine. Following lunch we will enter the cellar door where it is home of the recently awarded Worlds Best Shiraz, they have received numerous trophies and accolades for their complete range of wines. The Witchmount name is synonymous with exceptional quality and consistently rated amongst the best of Australian wineries. Enjoy a range tasting followed by an informative winery tour.
